

## **MAS221N443S**

## **Monobloc with wall for refrigerating trailer.**

Autonomous monobloc for small refrigerated trailers adapted to the conservation of fresh products.

### **Refrigerating capacity / Coldroom volume** **T°ext. +35°C**

<b>T° room 0°C</b>	1900 W / 15.6 m <sup>3</sup>
--------------------	------------------------------

### **Technical Data**

<b>Power nominal absorption</b>	1.1 kW
<b>Intensity nominal absorption</b>	6.7 AMP
<b>Mass</b>	77 KG
<b>Air volume condenser</b>	1400 m <sup>3</sup> /h
<b>Air volume évaporator</b>	1200 m <sup>3</sup> /h
<b>Air throw</b>	4 m

Monobloc with hooding ensuring a maximum of protection against the agents atmosphériques Compressing hermetic rotary 1 cv equipped with integral protection,  
Cooled by the gas aspire,  
Expansion of gas by capillaire,  
Fluid R407C,  
Cyclic de-icing by hot gas,  
Automatic elimination of condensed water  
Card fixes for the connection at the electric feeder,  
integrated electromechanical control panel.

#### **OPTIONS:**

Diferente voltage,  
Relay of control of the supply voltage.
