## GCM502PD01F

### MULTI-COMPRESSORS POWER PLANT DRIVEN WITH CONDENSERS

The central multicompresseurs Zanotti, thanks to the installation of many solutions we have developed, and use of high reliability components were designed and produced to meet the specific requirements of each client in the refrigeration sector.

# Refrigerating capacity / Coldroom volume T° ext. +35°C

T° Evaporation -5°C	32542 W
T° Evaporation -10°C	26961 W
T°Evaporation -15°C	21652 W

#### Refrigerating capacity / Coldroom volume T° ext. +40°C

T° Evaporation -5°C	-
T° Evaporation -10°C	24214 W
T°Evaporation -15°C	19262 W

### **Technical Data**

Voltage	400V/3N~/50 HZ

STANDARD FEATURES:

Compressors:

Rotary in suction and Resistance Seeing crankcase oil Interior protection against overheating engine surge and Fixing rubber shock absorbers

regulation oil

oil separator Collector equalizer oil reservoir oil Régulateur mechanical level (Equalization between semi-hermetic compressors.

Chassis:

bent sheet metal bolted and galvanized steel and painted with epoxy powder

Aspiration:

Filter cartridge valves taking pressure valves intervention Refoulement valves taking pressure valves intervention

Security Pressure

high and low pressure Protection Domestic compressors Thermal Protection ZANOTTI FRANCE
